- A consultation upon arrival will be provided to review your fiber and assist you with best practical uses for your fiber.
- Fiber length should be between 3" and 7". (If less than 3", we can make clouds).
- A note on skirting: We strongly recommend you skirt your fleeces before bringing them to us. When we skirt the fleece, you are paying for fiber we may throw away when skirting. Fleeces with heavy VM, mildew and/or moths will be rejected.
- For those unfamiliar with fiber processing, washing wool fleeces reduces the weight by approximately 30% or more.
- Payment terms: 50% deposit, remainder due upon completion.
